Experience

Web Developer • Freelancing • Richmond, VA • April 2012 - Present

- Developed HTML5 / JS based games for fun and engaging experiences on microsites.
- Created website for national brand Vintage Seltzer to recognize the release of a brand and packaging re-design.
- Assisted clients with navigating the process of website development by explaining decisions and possible choices available to them.

Front End Developer • Best Response Strategies LLC • Glen Allen, VA • March 2011 - July 2012

- Lead team in complete refactor of the UI and UX of Django based web application. Created style guides, developed wire frames in accordance to business tasks, implemented static asset management, targeted mobile platforms using responsive design, and developed the Django templates, CSS (SASS), and Javascript (CoffeeScript) for the front end of the application.
- Prototyped interfaces for new product features in Photoshop and Illustrator.
- Actively participated in agile workflow development, heading discussions for UI and UX of application.
- Lead learning sessions for SASS and CoffeeScript to help get the development team up to speed.
- Created and tested HTML email templates to ensure a consistent design in multiple clients.

Web Developer • VCU da Vinci Center for Innovation • Richmond, VA • May 2010 - December 2010

- Worked with an interdisciplinary team including business, art, and engineering students to create a web application targeting the maintenance and parts domain for Swedish based engineering company, Alfa Laval, and for a local web startup.
- Lead development of web applications using the Symphony CMS framework and Drupal. Delegated tasks and created a timeline for project milestones to achieve deadlines.
- Created and presented user experience demonstrations of the applications to company executives.

Lab Assistant • VCU Graphics Lab • Richmond, VA • August 2008 - May 2011

- Assisted students and faculty with studio photography, print production, trimming, binding, film scanning, photo correction, web services, and project management.

Multimedia Intern • Immersion Active • Frederick, MD • September 2007 - January 2010

- Assisted in implementing interactive online courses designed in Flash, also maintained and updated client websites.
- Completed secondary research for the marketing book *Dot Boom: Marketing to Baby Boomers through Meaningful Online Engagement*.
